CREATING CUSTOM WOVEN AFGHAN THROWS

Production Time: 4-6 weeks

1. Gather images, photographs, pictures, drawings, graphics, etc. of the subjects you want represented on your throw.
2. Arrange your images, sketch a rough layout and send all your information to Cross Canvas Company.
3. We will contact you to discuss the layout along with questions or suggestions we may have.
4. We will then prepare a computerized color design. We will submit the layout to you for comments and approval. If any changes are needed, please make them at this point.
5. Once the color design is approved a preproduction sample is prepared for final approval. Each purchase order of 50 units or more will receive a PROTOTYPE for final approval. Small changes or design errors may be corrected. However, if any major design changes are made after the preproduction prototype is woven, there will be a \$150.00(V) redesign fee. Cancellations will be subject to a \$500.00(V) charge.
